---

Good day Capt,

Kindly note info from only local supplier:

1- We do not have 380 LS max 1% available in Hawaii. We offer the following:

RMG380 (ISO 8217:2005) max 3.5% sulfur.  
RME180 (ISO 8217:2005) max 3.5% sulfur.  
DMA (ISO 8217:2005) max 0.1% sulfur.

2- We require a minimum of 150 mt for delivery by barge, both FO and MGO. So we'd be unable to offer for 50-70 mt IF380.

3- Timing is an issue, as we are taking the barge out of service between 16<sup>th</sup> – 22<sup>nd</sup> for maintenance. I expect to be loading again on 22<sup>nd</sup>, and could be available after that.

Current indication (basis 150mt minimum) for RMG380 is \$ 705/MTD, and for DMA is \$1,117/MTD. Booming fee is \$905 additional.

Pls advise if of interest, Sir

Mthks/Brgds
